	Respiratory: Vapour respirator.	
	Gloves: Protective	
	Clothing: Protective	
Precautions	Handling: Keep containers securely sealed	
	Storage: Store in original containers in approved flame-proof area. No	
	smoking, naked lights, heat or ignition sources. DO NOT store in	
	pits, depressions, basements or areas where vapours may be trapped.	
	Keep containers securely sealed. Store away from incompatible	
	materials in a cool, dry well ventilated area. Protect containers	
	against physical damage and check regularly for leaks. Observe	
	manufacturer's storing and handling recommendations. Keep cool.	
	Store below 25 ^o C.	

8. Emergency Response Data

Equipment required	Fire Extinguish Media: Water spray or fog, Foam, Dry chemical powder,
	Carbon dioxide.
	Special Procedures: Alert Fire Brigade and tell them location and nature of
	hazard. May be violently or explosively reactive.
	Wear breathing apparatus plus protective gloves. Prevent,
	by any means available, spillage from entering drains or
	water Consider evacuation (or protect in place). Fight fire
	from a safe distance, with adequate cover. If safe, switch
	off electrical equipment until vapour fire hazard removed.

	Use water delivered as a fine spray to control the fire and		
	cool adjacent Avoid spraying water onto liquid pools. Do		
	not approach containers suspected to be hot. Cool fire		
	exposed containers with water spray from a protected		
	location. If safe to do so, remove containers from path of		
	fire. When any large container (including road and rail		
	tankers) is involved in a fire, consider evacuation by 500		
	metres in all directions.		
	Unusual Hazards: Liquid and vapour are flammable. Severe fire hazard when		
	exposed to heat, flame and/or oxidisers. Vapour forms an		
	explosive mixture with air. Severe explosion hazard, in the		
	form of vapour, when exposed to flame or spark. Vapour		
	may travel a considerable distance to source of ignition.		
	Heating may cause expansion / decomposition with violent		
	rupture of containers. On combustion, may emit toxic		
	fumes of carbon monoxide (CO).Decomposition products		
	include chloroaniline.		
Exposure	First Aid Measure: Inhalation: Remove from exposure. Restore breathing.		
(Inhalation, skin, and	Keep warm and quite get medical attention.		
eye contacts	Skin: Wash affected area thoroughly with soap and water.		
ingestion)	If irritation persist. Get medical attention.		
	Eyes: Flush with large amounts of water for 15miutes.		
	Get medical attention.		
	Ingestion: Do not induce vomiting drink copious amounts of		
	milk. Get medical attention		
Spills	Steps to be taken: Remove all ignition sources. Clean up all spills immediately.		
	Avoid breathing vapours and contact with skin and eyes.		
	Control personal contact by using protective equipment.		
	Contain and absorb small quantities with vermiculite or		
	other absorbent material. Wipe up. Collect residues in a		
	flammable waste container
